

DIRECTORATES

FORCE PROJECTION DIRECTORATE (FPD)

- ◆ Army Pre-positioned Stock (APS)/Class VIII
- ◆ Medical Chemical Defense Materiel (MCDM)
- ◆ Unit Deployment Packages (UDP)
- ◆ Reserve Component Hospital Decrement (RCHD)
- ◆ Foreign Military Sales (FMS)
- ◆ Medical Materiel Readiness Program (MMRP)

FORCE SUSTAINMENT DIRECTORATE (FSD)

- ◆ Reset and Left Behind Equipment (LBE)
- ◆ Plans, Operations and Requirements
- ◆ Production and Assembly Management
- ◆ Materiel Fielding—Total Package Fielding (TPF)
- ◆ Acquisition Data Synchronization
- ◆ TO&E Medical Materiel Modernization

SUPPORT OPERATIONS (SPO)

- ◆ Distribution Operations Center (DOC)
 - Influenza Vaccine (FLU)
 - Anthrax
 - Small Pox
 - Medical Materiel Quality Control (MMQC)
- ◆ Defense Logistics Operations Center (DLOC)
- ◆ Customer Relations Management (CRM)

MEDICAL MAINTENANCE MANAGEMENT DIRECTORATE (M3D)

- ◆ Policy/Strategic Planning
- ◆ Data Analysis
- ◆ Medical Materiel Quality Control (MMQC) for Medical Equipment
- ◆ AMEDD Maintenance Sustainment Program
- ◆ National Maintenance Program (NMP)
- ◆ Maintenance Operations Division (MOD)
- ◆ Forward Repair Activity Medical (FRA-M)

PROGRAM MANAGEMENT OFFICE - MEDICAL DEVICES (PMO MD)

- ◆ COTS Materiel Developer
- ◆ Supportability Analysis
- ◆ Advanced Technology Development
 - Enroute Critical Care Systems
 - O2 Generation
 - Traumatic Brain Injury Biomarkers
- ◆ Electronic Equipment Handbooks
 - Operator/Service Literature
 - Accessories/Consumables Handbooks
 - Start-up Lists

PROGRAM MANAGEMENT OFFICE - INTEGRATED CLINICAL SYSTEMS (PMO ICS)

- ◆ Imaging Systems and Management
- ◆ Project Support
- ◆ Clinical Systems
- ◆ Remote Diagnostic Access (RDA)

USAMMA

“ ***Semper Responsus***, in Relentless Pursuit of Medical Readiness”

Defense Medical Logistics Center

USAMMA VISION...

A fully integrated Enterprise providing America's premier medical team with innovative medical logistics solutions

USAMMA MISSION...

Plan, synchronize and provide medical logistics for Health Service Support to forces conducting joint and full spectrum operations by:

- Managing medical materiel life cycle projects
- Equipping and sustaining the medical force
- Managing medical strategic centralized Programs
- Advancing performance excellence

USAMMA The U.S. Army Medical Materiel Agency, Fort Detrick, Maryland, serves as the Army Surgeon General's executive agent for all strategic medical logistics programs and initiatives. USAMMA has operational oversight of medical materiel acquisition vehicles and serves as the AMEDD's fielding command for all new medical materiel. The Agency centrally manages a variety of logistics programs such as war reserve and critical item asset management. A key element of USAMMA's wartime support is the deployment of Medical Logistics Support Teams to issue centrally managed materiel to units.

USAMMA CORE COMPETENCIES...

- ◆ *MANAGE MEDICAL MATERIEL LIFE CYCLE PROJECTS*

- ◆ *EQUIP AND SUSTAIN THE MEDICAL FORCE*

- ◆ *MANAGE STRATEGIC CENTRALIZED PROGRAMS*

- ◆ *ADVANCE PERFORMANCE EXCELLENCE*

MISSION STATEMENTS

FORCE PROJECTION DIRECTORATE (FPD)

- ◆ To provide medical logistics situational awareness, customer support, centralized program management, materiel planning, programming and execution, to ensure medical materiel is available to support Army operations and the security assistance program.

FORCE SUSTAINMENT DIRECTORATE (FSD)

- ◆ To provide medical materiel support to all Army components to optimize the medical materiel readiness of tactical Army organizations.

MEDICAL DEVICES (PMO MD)

- ◆ Provide lifecycle management of all Table of Organization and Equipment (TOE) devices and ancillary medical items supporting human and animal patient care, with the exclusion of imaging systems, across the full spectrum of field healthcare.

INTEGRATED CLINICAL SYSTEMS (PMO ICS)

- ◆ Execute a patient-centric, system of systems approach to ensure timely delivery of affordable, sustainable, interoperable, and information assurance compliant capabilities in support of clinical requirements for fixed and deployed medical treatment facilities.

SUPPORT OPERATIONS (SPO)

- ◆ To provide USAMMA Medical Logistics coordination to synchronize USAMMA Directorates/Acquisition Project Managers and ensure Medical Logistics solutions are available to support DoD and Army Operations.

MEDICAL MAINTENANCE MANAGEMENT DIRECTORATE (M3D)

- ◆ Has principal responsibility for and serves as the Army's lead for Class VIII equipment maintenance; manages the AMEDD's National Maintenance Program, provides a National Sustainment Program for medical materiel, operates depot level medical maintenance capability, and implements national medical maintenance programs, policies and procedures.
